

Shoot And Save Camps

The Shoot and Save Camp will teach techniques that will make campers become great goal scorers. Campers will learn 1v1 feints, footwork and speed training, receiving techniques, kinds of runs to goal, heading for goal, and many more goal scoring techniques.

Goalkeeper campers will learn fundamental goalkeeping such as technique, footwork, positioning, tactics, fitness and psychological aspects of the game. The goalkeeper will display what they learn in their daily training into the scrimmages.

Our outstanding staff with their vast experiences in making soccer players will make our Shoot and Save Camps very special.
